What are the "Accident Avoidance Workshops"?

The most personal and relevant skill training program available, period. We cover what "driver's ed" cannot. Namely, how to handle a car when your lives depends on it. This parent-participation program is done in your own car, ... it shows your student how fast accidents happen, ... and it trains them how to react when it does, so when faced with that inevitable emergency, they have already practiced how to respond.

It's best to attend once they have their permit, and you have spent 6-10 hours in an empty parking lot. The bad habits start taking a set at about the 30 day mark, and get harder to break as time passes. Naturally, you want to train them how to handle an emergency before you subject them to one. It's just the ol' "Give them the gun safety class ... and THEN hand them the loaded weapon" mentality.

An 8+ hour program delivered in 2 parts:

- 1- A 3+ hour classroom session held on a weeknight,
(Classroom times: 6:24 p.m. to 9:59 p.m.)
- 2- One 5-hour driving sessions on that following weekend.
(Driving times: Morning from 7:00 to 12:15 p.m., or afternoon from 1:15 to 6:30 p.m.)

The cost: In 2018, thanks to sponsors and Partners in Education, the regular price of

\$549 has been reduced to **\$340 per parent/student team**, or about 1/3 of your insurance deductible. Also, you can do a double-parent upgrade for \$60 so all of you could be eligible for Defensive Driving Certificates, which can significantly reduce your insurance rates if you haven't done so in the past 3 years as recommended.

~ "This program gives parents and students the tools they need to communicate in high stressful situations about a very dangerous subject." -Wayne Estes; President; Sebring International Raceway

~ It's common sense. Train your kid how to handle an emergency before you subject him to that very real possibility by letting them drive on public roads! -P. Cain; Parent

~ 6 crashes in 6 months. Drove from Minneapolis to attend 8 years ago. Crash free since. -D. Myers

~ The best part of this program, was that by the time we were done, I was able to talk to my kid again about driving ...WITHOUT getting the attitude. It changed our family dynamic forever. - M. Compo

~ "It's humbling to think about the number of lives and injuries that are probably spared because of this great program."
-Jerry Caldwell; Bristol Motor Speedway
